# ENDYMED™ | PRO

Superior RF Multi-Treatment Platform

The EndyMed PRO, powered by unique, FDA cleared 3DEEP RF technology, offers innovative and effective aesthetic solutions for non-surgical lifting, tightening, contouring, skin resurfacing and RF Microneedling for the face, neck and body.

The EndyMed PRO is an all-in-one treatment platform that is flexible and upgradeable, which will grow as your practice grows, delivering impressive ROI.

The EndyMed PRO is powered by superior, patented, FDA approved 3DEEP RF Technology. EndyMed's 3DEEP technology is the most powerful and focused skin technology available today. Unlike Monopolar or Bipolar RF technology, which is more superficial and can often be painful or risky to the epidermis, 3DEEP's non ablative skin tightening hand piece deliver controlled energy to the depth of the dermis, reaching 52°-55°C, with minimal epidermal heat. This is achieved through gently focusing the device energy into the dermis for optimal, painless collagen remodeling.

EndyMed's 3DEEP technology incorporates real time skin impedance monitoring, providing the most optimal energy to the treatment target area by making continuous adjustments based on the tissue impedance over the current treatment area.

### 3DEEP - Focused & Deep RF Energy

**A** Bipolar and x-polar RF - Relatively superficial and less efficient

**B** Monopolar RF - Energy flows uncontrolled in the tissue, requiring intense cooling

**C** 3DEEP RF - Focused and contained deep energy flow with no need for cooling

### 3DEEP Popular Treatments

- Fractional resurfacing
- Skin tightening
- Wrinkle reduction
- Body contouring
- Texture improvement
- Cellulite reduction
- Circumferential reduction
- Acne and acne scar reduction
- Traumatic scar reduction
- Stretch mark reduction

### SEE The Difference 3DEEP Can Make

### Unparalleled Treatment Experience

- 100% safe • Painless and effective treatments • Suitable for all skin types
- Immediate and long term superior results • No downtime
- Fast treatment times • in-and-out treatments
