

About EndyMed

EndyMed Medical, established in 2007, offers energy based medical aesthetic treatment systems for both the professional and consumer markets. EndyMed's proprietary, FDA cleared 3DEEP radiofrequency technology is the world's first multisource RF technology, and is a highly effective solution for nonablative and fractional wrinkle treatment, skin tightening, body contouring and acne scar treatment.

See The Difference 3DEEP Can Make

The PURE 2.0 is powered by innovative, FDA approved 3DEEP RF technology.

EndyMed's 3DEEP is the most effective and focused RF technology available today. Unlike Monopolar or Bipolar RF technologies, which are superficial and can often be painful or risky to the epidermis, 3DEEP delivers controlled energy deep into the dermis, reaching 52°C - 55°C, with minimal epidermal heat for optimal, painless collagen remodeling.

Before & After Results
