5 X 10ml

5 X 10ml

The oligoelements are essential in almost all biological processes. Zinc is an excellent antioxidant and helps in the healing processes. Iron is also powerful antioxidant and it is present in the synthesis of collagen and elastin. (Zinc. Cobalt. Niquel)

ORGANIC SILICON 0.5% - 5ml 🎺

The Organic Silicon helps to stimulate the sythesis of the supporting fibers of the skin, such as collagen and elastin, providing firmness and tone to the tissues. It is indicated as coadjuvant to combat aging, cellulite and flaccidness. Excellent regenerator

ASIAN CENTELLA 0.5% - 5ml 🎺

It stimulates the production of collagen, reduces the appearance of "orange peel" skin, giving the tissue the ability to regain its elasticity.

BIOTIN HIDRIXIN 0.2% - 2ml

It is a natural astringent of the skin and scalp, which helps improve its structure and comfort. Especially recommended for oily, mixed and sensitive skins, acne, and oily scalp and/or with a tendency to diffuse seborrhoea alopecia, it helps regulate the sebum secretion.

COLLAGEN PYRUVATE 1% - 2ml 🗸

The ingredients of Collagen Pyruvate ampoules with regenerative properties help break the cells from the deep and superficial skin layer, improving elasticity and hydration. They are particularly indicated for the treatment of flaccidity, stretch marks, aging, strengthening the capillary vessels. The collagen pyruvate ampoules stimulate the fibroblast activity and collagen synthesis. (1% Pyruvic Acid)

DEXPANTHENOL 20% - 5ml 🗸

It provides greater skin elasticity and hydration; helps regenerate and restructure skin cells. Highly moisturizing, it is recommended as an aid in the treatment of very dry and fragile skins as well in skin damage from sun exposure. It improves cell regeneration and has anti-inflammatory properties. It is also used to treat alopecia.

ARTICHOKE 2% - 5ml 🗸

The Artichoke Extract is specially indicated as a coadjuvant in treatments of cellulite and localized fat. L-CARNITINE 20% - 5ml 🎺

It is indicated to assist in cellulite reduction and weight control, since it helps eliminate fat and tones the muscle. L-Carnitine reduces the excess quantities of triglycerides and cholesterol, improving the lipid

CAFFEINE 10% - 1ml 🗸 The ampoules of Caffeine are particularly indicated as coadjuvants to

combat cellulite and localized fatness. CELLESTABYL - 1ml The function of Cellestabyl is helping to dissolve fats difficult to

remove, being powerful and effective weapon in the treatment of

PHOSPHATIDYLCHOLINE - 5ml 🎺 It is indicated as an aid in weight loss treatments, since it helps reduce and eliminate localized fat and reshape body contour. It is an excellent fat burner and is also recommended to remove small fat deposits localized in patients with ideal weight. (PPC-3.5%, Sodium

HYALURONIDASE POWDER 20% - 5ml

cellulite and localized fatness. (Vit. B6 + Vit. B3)

It is used to depolymerize glycosaminoglycans and also as a powerful diffuser. It acts directly on the elimination of water retention. It exerts a restructuring action on the connective tissue and rebalances the skin affected by hydrolipodystrophy. (1500UI)

HYALURONIDASE LIQUID - 5ml 🗸

The Hyaluronidase ampoules actuates at depolymerization of glycosaminoglycans. It has a high enzymatic activity and as a diffuser agent. Promote the elimination of water retention and the reduction of the adyposites polymerization. Support restructured action on the connective tissue and rebalances the skin affected by cellulite. (1500UI)

DEOXYCHOLIC 10% - 10ml 🎺

Deoxycholic 10% are specially indicated for treatments to reduce localized fat, helping in reshaping the body's contours.

Recommended to fight skin aging, it promotes significant improvement in flaccidity especially of eyebrows, eyes and eyelids. It increases elasticity and firmness of the face and neck skin. It produces a tensor and firming effect and is an excellent protector against damage caused by free radicals.

CHONDROITIN MESOPLUS - 2ml 🗸

The Condroitin Mesoplus ampoules assist in tissue repair processes due to their action on the organization of fibrillar collagen. They are particularly indicated for the treatment of facial and body flaccidity and aging.

REGENERATIVE

CELLULITE

LOCALIZED

FAT

TONE

ĭ

It helps reduce leg fatigue and is recommended for people who spend lots of time standing or those who have a very sedentary lifestyle and limited mobility in the lower limbs. It is also used to eliminate fatty acids and fluid retention that accompany cellulite.

GINKGO BILOBA 4% - 2ml

Its properties improve blood flow to the tissues and at the same time combat cells damaged by the free radicals, acting as a natural antioxidant. It is recommended for anti-age treatments, hair loss and also the appearance of dark eye circles.

LAURETH 0,5% - 2ml

It is indicated for all types of skins, since it helps capture water through the stratum corneum, promoting hydration of the lipid layer and epidermis. It is excellent to assist in the treatment of sclerosis, spider veins and couperosis and rosacea.

HYALURONIC ACID 1% (small) - 5ml 🗸

It helps in the treatment of wrinkles and expression lines with immediate results. It restores and maintains effectively high hydration levels of the skin. It provides greater elasticity to the skin and exerts a repairing effect that restructures the damaged skin. It stimulates the fibroblast function and collagen synthesis, retarding the natural process of aging.

HYALURONIC ACID 2% (medium) - 5ml ✓

It helps in the treatment of wrinkles and expression lines with immediate results. It restores and maintains effectively high hydration levels of the skin. It provides greater elasticity to the skin and exerts a repairing effect that restructures the damaged skin. It stimulates the fibroblast function and collagen synthesis, retarding the natural process of aging.

HYALURONIC ACID 3.5% (deep) - 5ml ✓

It helps in the treatment of wrinkles and expression lines with immediate results. It restores and maintains effectively high hydration levels of the skin. It provides greater elasticity to the skin and exerts a repairing effect that restructures the damaged skin. It stimulates the fibroblast function and collagen synthesis, retarding the natural process of aging.

DNA 2.5% - 5ml 🗸

DNA, with its antioxidant and moisturizing characteristics, helps stimulate cell regeneration and restructure the connective tissue. It increases skin luminosity and elasticity and contributes to a younger look. It is indicated to assist in treatments against photo-aging, dehydrated skin, wrinkles, stretch marks and actinic aging.

VITAMIN A - 2ml 🎺

With moisturizing properties, it provides a softness and glow to the skin, diminishing fine lines and wrinkles. Recommended for greasy and acneic skins, it helps stimulate collagen production, the substance responsible for skin firmness. It prevents skin aging, since it promotes cell renewal and protects the skin against free radicals. (Retinal Palmite 0,1%)

Due to its active components based on Vitamin A. Vitamin E and Vitamin C, the AEC ampoules prevents flaccidity and coetaneous aging, promoting skin renovation and protecting from external

ARGIRELINE - 5ml 🗸

B-COMPLEX - 5ml

The active component of Argireline is a powerful hexapeptide which creates a natural botox effect on the skin, it is an efficient anti wrinkle which prevents and reduces expression lines.

Due to its active components the B Complex ampoule helps in skin

regeneration, creating new cells, reducing the signs of aging and

eliminating blemishes. Help to improve melasma and psoriasis.

HYALURONIC ACID 3.5% + DMAE - 5ml ✓ Hyaluronic Acid + DMAE support and promote skin health and elasticity, preventing the skin flaccidity, acting with a strong hydratation and firming effect, reducing and smooths wrinkles.

SERUM SOLUTION - 5ml 🗸

The serum promotes the process of rupture of fat cells, helping to eliminate accumulated liquids. It is excellent to assist in the treatment of cellulite and localized fatness. (0,9% Sodium Chloride)

GLUTATHIONE 20% - 5ml 🗸

The active ingredients of Glutathione prevent the damage caused by reactive oxygen species and free radicals when acting as an antioxidant and detoxifying agent. Glutathione is an essential component of melasma and depigmentation treatments due to its capacity to inhibit melanin synthesis.

VITAMIN C 20% - 5ml 🗸

Its antioxidant properties help neutralize free radicals and protect the skin. It reduces the appearance of wrinkles and assists in collagen production. Promoting a firmer skin, it gives a younger and glowing look. It is an excellent whitening agent and protects the skin against the UVA/UVB radiation. (Ascorbic Acid 20%)

TRANEXAMICUM - 5ml

Tranexamicum is specially formulated to balance skin tone and reduce melanin production. It is also a tyrosinase inhibitor, which reduces the production of melanin, preventing the appearance of dark spots on the skin. (1500UI)
